

# INTENSE-USE COMMUNICATION BOARDS

*for healthcare*

## Information is Critical

And your communication board is a critical tool in the patient care process.

Now you have a solution that supports your team.

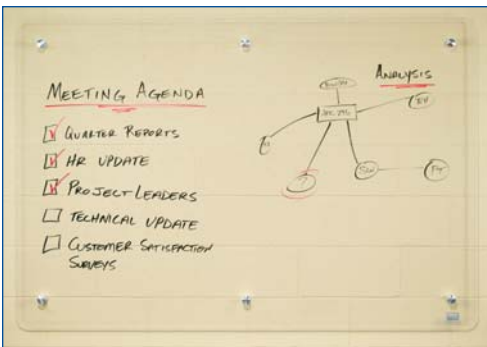

## Clear Future Markerboards for Intense-Use

- Features a high grade, rugged acrylic 1/2" thick.
- Features our abrasion-resistant, Intense-Use L2 surface.
- Surface is standard "glass-clear".
- Custom sizes available.
- Clean with commercial cleaners without damaging surface.

### Clarity SERIES WALLMOUNT

- Each board is trimmed with a clean-line aluminum extruded frame and has a full length aluminum marker tray.
- Sizes available: 36"H x 48"W (WALL3648H), 48"H x 36"W (WALL4836V), 48"H x 60"W (WALL4860), 48"H x 72"W (WALL4872), 48"H x 96"W (WALL4896).

### Acuity SERIES WALLMOUNT

- Each board is radius routed, drilled for attachment.
- Includes 1 1/4" W x 2"D aluminum stand-outs for stylish, confident mounting.
- Sizes available: 36"H x 48"W (WALL3648) with 4 stand-outs, 48"H x 60"W (WALL4860) with 6 stand-outs, 48"H x 72"W (WALL4872) with 6 stand-outs, 48"H x 96"W (WALL4896) with 8 stand-outs.
- Add a Frosted Panel behind the clear surface for an upgraded look and for use on walls of medium to dark finish.

### Vision SERIES MOBILE

- Each board includes a commercial-duty steel welded frame, powder-coated in Silver. Dual-wheel casters enable board to be moved in-room or from room to room (proven tough even in institutional environments).
- Sizes available: 48"H x 72"W (VIS FLR 4872), 48"H x 96"W (VIS FLR 4896).

## Customized Markerboards

Order any of our Intense-Use Markerboards with custom graphics or grids.

Clear Future Markerboards can customize your information board to your specifications. We use high-quality vinyl application on the reverse surface so your content shows through but you retain a smooth, cleanable surface.

Provide your representative with:

- Scanned sketch or digital mock up of your graphic need
- Quantity
- Series
- Size

...and we will provide a no obligation quote.

Graphics applied to the reverse to leave a smooth cleanable front.

## Use & Maintenance

### Markers

We recommend using Low-odor, alcohol based ink, dry erase markers (supplied and available through most national stationery companies... Brands include Dixon, Expo 2, and others). It is recommended that users do not leave marker on board surfaces for an extended length of time.

### Cleaning

Because the surface acts more like glass, you can use typical commercial and residential cleaners on it. Unlike standard whiteboards, a glass cleaner will not affect our L2 surface performance. If marking stays you can wipe it with cleaner and "Wow, its gone!". A liquid detergent and water solution is the recommended cleaner for our L2 surface.

While the use of abrasive cleaners is not recommended, the following brand name cleaners have been tested and found to work well on our board surface. Use lightly.

- Fantastik<sup>®</sup> household cleaner
- Mr. Clean<sup>®</sup> household cleaner
- Formula 409<sup>®</sup> household cleaner
- Top Job<sup>®</sup> household cleaner
- Glass Plus<sup>®</sup> cleaner
- Windex<sup>®</sup> window cleaner

Never use mechanical methods, such as razor blades, putty knives or scrapers on the surface of the surface. This may lead to gouging and removal of the abrasion resistant coating.

Each board comes with a bottle of Deluxe Surface Cleaning Solution, which can remove permanent marker and actually reconditions the surface. Our boards require no other regular maintenance.

Contact your local dealer or Clear Future Markerboards for more information.
